

# ABDULLA KN

## PYTHON DJANGO DEVELOPER

📞 7025140706

✉️ abdullakn96@gmail.com

📍 Kochi, Kerala

### PERSONAL PROFILE

Dedicated self-taught Python-Django full stack developer with robust problem solving skills and creating elegant solutions in the least amount of time. Developed an E-commerce web app, Online Job Portal for Techies. Passionate about data structures and cloud computing. I am seeking a role that allow me to enhance and utilize my skills as I provide high quality work.

### PROJECTS

#### **Elekso** (E-commerce Web Application)

An Ecommerce web application that focuses on selling on Electronic Gadgets like Mobile Phones and Laptops. Users can purchase products in different categories. The cart is managed for guest and authenticated users separately. The user can apply a coupon to get discount on the product and have payment method like cash on delivery and online payment.

**Technical:-** Clean architecture, Django, PostgreSQL, RazorPay, PayPal, AWS S3, Social Authentication with Google and Facebook.

**Git :-** <https://github.com/abdullakn/elekso-ecommerce>

#### **Careerfy** (Online Job Portal)

It's an online Job Portal Application for Techies just like Indeed and Naukri. The App contains two type of main users that are Job Seekers and Job Providers. Job providers have a Subscription option to post a job. User can have a filtration option based on categories and location. Also implemented MCQ question for Careerfy Badge skills. Web Socket is used for implementing chat module where job seekers can have option to chat with job providers.

**Technical:-** Clean architecture, Django, PostgreSQL, AWS S3, WebSocket, Django Channels, Redis, Daphne, Google and Facebook authentication, Stripe Payment.
